PROJECTS

Property Tax Management Systems

- Developed comprehensive **dashboards, admin panels,** and **citizen panels** for the "Property Tax Management" project, catering to the requirements of **JUIDCO** (Jharkhand Urban Infrastructure Development) and **AMC** (Akola Municipal Corporation).
- Executed **Frontend** development tasks and **Android development** responsibilities, ensuring seamless integration of features such as **multilevel roles**, **workflows**, and **field verification** capabilities.

- Utilized technologies such as **React.js, Redux Toolkit, Tailwind CSS,** and **React Native** to implement responsive and user-friendly interfaces, enhancing accessibility and usability.

Fines and Penalties

- Developed the "Fines and Penalties" project for **JUIDCO** (Jharkhand Urban Infrastructure Development), aimed at **addressing issues or violations** related to traffic violations, neighbor disputes, garbage mismanagement, and other social infractions.
- Created both **web** and **android** applications, equipped with multilevel roles to ensure efficient management and resolution of various types of incidents.
- Utilized technologies such as **React.js, Tailwind CSS, and React Native** to implement responsive and user-friendly interfaces, enhancing accessibility and usability for all stakeholders.

Naxatra News

- Developed the "Naxatra News" project, facilitating **real-time news** dissemination and management.
- Created **web** and **android** applications catering to **citizens, reporters, and administrators**, enhancing accessibility and usability.
- Constructed an efficient **admin panel** to enable seamless news management and publication.
- Leveraged technologies including **React.js, Tailwind CSS, React Native, Node.js,** and **PostgreSQL** to ensure robust functionality and performance.
